

I enjoy the broadcast that XM radio offers. I don't want to see them loose any of the programs that they offer. I would like to see them continue to grow. I believe that the services they offer are a big help to the communities around this country. We surely have more to worry about and spend money on than this issue. Let's spend our taxpayers money on issues that are more important such as the exposure of our youth in XXX videos and pictures. Leave XM alone and let them grow.
